Newsletter: Fall 2025

Introduction to Reformed Truther Ministries

Welcome to the first newsletter for Reformed Truther Ministries (RTM). We have included an introduction to our ministry and its purpose as well as updates on our ministry work. Reformed Truther Ministries is an Evangelical Christian ministry that is a part of the Reformed theological tradition. Our ministry focuses on researching matters related to the Nephilim and the paranormal. The ministry not only researches these topics but also ministers to people dealing with problems connected to demonology and the paranormal. The ministry was founded in 2021 by Joe Harper. It began as a humble website and YouTube channel intended to teach truth that included some more fringe topics. For the first few years, the YouTube channel served as the center of the ministry. In 2024, the ministry really found its purpose when Joe Harper began traveling to various locations to conduct research into these topics such as giant mounds, Sasquatch, the alternative history of North America, and U.F.O.s. This research has now been conducted in five states. These states are Minnesota, Wisconsin, Iowa, Michigan, and New Mexico. The purpose of this research is to bring awareness to these topics as well as show the existence of the supernatural and ultimately the superiority of the biblical worldview.

A New Team Member

Reformed Truther Ministries welcomed Huechee Yang to the ministry team this year. Huechee Yang is now working alongside Joe Harper on the RTM ministry team. Joe Harper and Huechee Yang have gone through a month's long process of preparing for future ministry behind the scenes. This process has included conducting research on demonology, seeking spiritual counsel from a chaplain, prayer, and spiritual preparation. Joe Harper and Huechee Yang have now collaborated on two projects out in the field at Crazy Annie's Bridge in Henderson, Minnesota and a separate project in Lilydale, Minnesota. These projects are both documented on the RTM YouTube channel. RTM plans for Huechee Yang to become increasingly more involved as the ministry moves into 2026.

Sasquatch Research

The most recognizable aspect of the work of RTM may be Joe Harper's research into Sasquatch. This reality is even reflected in the ministry's new logo that depicts a Sasquatch. The research has been conducted in various locations in northern Minnesota. This research is an ongoing process but it has already begun to bear some fruit. The research has attracted the attention of multiple believers in Sasquatch who have in turn contacted the ministry. These people have included a few individuals who have claimed to have personal experiences with Sasquatch. This research will continue to be conducted in the coming years if that is the Lord's will.

YouTube Interviews

A big part of the ministry work of RTM this year has been the YouTube interviews. Joe Harper started conducting interviews last year in 2024. In 2025, the Lord has seen fit to bless the ministry with a large number of people willing to agree to interviews. This has led to numerous fascinating conversations on different topics related to RTM's work and beliefs. These interviews have allowed RTM to make friends with many likeminded Christians. The interviews have been one of the largest blessings to RTM this year. RTM is excited to continue conducting interviews and working closely with our Christian friends that we make along the way.

Apparently...The Monsters Are Real

At the end of the 2024, Joe Harper published his new book titled Apparently...The Monsters Are Real! A Crash Course in Cryptids, Monsters, and Other Wacky Stuff. This is Joe Harper's third book. The book provides a good summary of our ministry's beliefs on the Nephilim, cryptids, and the paranormal. The book discusses how the Genesis 6 narrative is the foundation understanding cryptids in our world today. We would highly recommend likeminded Christians to check out Apparently...The Monsters Are Real! A Crash Course in Cryptids, Monsters and Other Wacky Stuff! The book is available on the Amazon store.

A Confession of Faith

At Reformed Truther Ministries, we are Particular Baptists standing in the broader Reformed tradition. To reflect this reality, Joe Harper has written a confession of faith that serves as the doctrinal standard for the ministry. This confession is similar in content to other confessions such as the First London Baptist Confession, the Second London Baptist Confession, and John Gill's Goat Yard Declaration. We believe this confession will provide a solid foundation for future work. The confession is now listed on the RTM website.

Prayer Requests

God has blessed RTM with tremendous growth in 2025. This growth has been a deep and profound encouragement to our ministry as well as a confirmation that the Lord wishes this work to move forward. The growth of the ministry has been accompanied with a great increase in the work load for the ministry. Over the last few months, the work of RTM has more than doubled. This increased work load has seemed to come almost overnight. This increased work has fallen primarily on Joe Harper who also works his secular vocation. Please be praying for Joe Harper to continue to be sustained by the Lord as he performs this work. Please also be praying for the Lord to bless Huechee Yang's work as a part of the ministry team. Pray for the Lord to provide the time and means for the ministry to be faithful for years to come. Finally, RTM's main goal is to be in contact with people dealing with matters related to the paranormal. Our ministry is working to help people be freed from spiritual oppression. Please be praying that the Lord providentially brings people to this ministry who may be helped by RTM.
